

Structural identifiability — baseline COVID-19 model
(no changepoints; rational simplification)

parameter	identifiability
p3D	globally identifiable
p2D	globally identifiable
p23	globally identifiable
p1D	globally identifiable
p12	globally identifiable
p1	globally identifiable
omega	globally identifiable
nu	globally identifiable
gamma3	globally identifiable
gamma2	globally identifiable
gamma1	globally identifiable
gamma0	globally identifiable
eps1	globally identifiable
eps0	globally identifiable
beta	globally identifiable

globally identifiable

locally identifiable

non-identifiable

Identifiability status
